No More You

Jaicko

Just one look in the mirror and I know I don't like seeing me alone,
I don't walk straight without you on my arm, I've lost my charm
I don't know how I made it before
Cause you were my future for sure
and now that its over I don't know how
I'm going to get by when no more youno more you
what am I gonna do
with no more you
to see me through no more you
what am i gonna do
with no more you
can't believe theres no more youI look at my past and just sigh
and theres nobody to ride with me for life
it feels like the end I lost my friend
I can't sleep at night because your side ain't occupied
the tears in my eye won't go away I'm in so much painCause no more you
no more you
what am i gonna do
with no more you
to see me through no more you
what am i gonna do
with no more you
can't believe theres no more youDon't know if I can make it or not
Everybody sees that I'm going through a lot
Its hard being low when I used to be on top
I cry for you theres no more you
Stop for a minute and I pinched myself
I can't believe I'm here by myself
Oh girl, I need your help
I cry for you theres no more youno more you no more you
what am I gonna do
with no more you
to see me through no more you
what am i gonna do
with no more you
I can't believe theres no more youNo more you
No more you yeah...
