

# Heaven

[Hayley Westenra](#)

A star shining in a universe far away  
My heart knows that we shall meet again some sweet day  
And you, you will be the flame that burns in my breast  
And oh, I know just by knowing you I was blessed  
Yes, I was truly blessed  
Heaven, Heaven, ooh, waiting there for me  
Heaven, Heaven, ooh, always let it be  
Heaven, Heaven, ooh, waiting there for me  
Heaven, Heaven, ooh, always let it be  
So why, tell me why the good die young, my old friend  
I pray that Heaven waits for everyone in the end  
And love, love is how we cross that bridge to the light  
A star, that is what you are in my darkest night  
Be always by my side  
Heaven, Heaven, ooh, waiting there for me  
Heaven, Heaven, ooh, always let it be  
A star shining brightly, ooh  
A star shining brightly, always let it be  
Heaven, Heaven, ooh, waiting there for me  
Heaven, Heaven, ooh, always let it be
