# It's Not Easy

## Consortium

You look surprised at the look in my eye
But I've been gone such a long time
Don't blame me if I'm not like you
You know I never wanted to
What led you to this conclusion?
You just created your own illusion

Of lovely clean hair and bright shiny teeth
And every Sunday eating roast beef
But its blue jeans and an old cotton vest
Are you saying that I look a mess?
Who gave you the right to decide?
My life's wrong, your life's right

Oh it's not easy
But I'd do it all again
And I wouldn't change a thing
Had so many laughs
Everywhere I've been

Oh no believe me
Everywhere I roam
I turn into my home
Made so many friends that I'd do it all again

Now is the time to reveal how you feel
We're face to face ready for the kill
When we were kids I said I be the best
I said I'd never follow the rest
You played the rules I played the game
So don't expect us to be the same

You go your way and I'll go mine
Now we've reached the end of the line
Don't look back as you walk away
'cause now I know that you've nothing to say

Oh it's not easy
But I'd do it all again
And I wouldn't change a thing

Had so many laughs
Everywhere I've been
Oh no believe me
Everywhere I roam
I turn into my home
I made so many friends that I'd do it all again

Oh it's not easy
Oh no believe me
Oh it's not easy
