We Are Sound

Corbu

Oh, come now, you can barely string
Two words together now
And you think Europe's own worst specters
Are coming back to haunt us allBut oh, come on now
'Cause we are sound, oh, we are light
So let's go on into the nightAnd I think that you were beautifully wounded
Just like Francis was at the end
And I think you, you're only strangers
And you're trying to protect yourselvesBut oh, come on now
'Cause we are sound, oh, we are light
So let's go on into the nightAnd we can take it all
We could have it all so easily
We could take it
All now piece by pieceCome on now, oh, come on, oh, come on now
'Cause we are sound, oh, we are light
So let's go on into the night
Into the night, into the night, into the night'Cause we are sound and we are light
So let's go on into the night
'Cause we are sound and we are light
So let's go on into the night
