

# In The Night-side Of Eden

## Him

Divided we stand in light of a frozen sun  
Cursing the gods we have become  
We steal the fire from the sacred heart  
And bleed the wine unholy  
We fall in love with the serpent's song  
And feel nothing  
In the nightside of Eden, we're born again, dead  
Forever we are, forever we've been  
Forever we'll be crucified to a dream  
In the nightside of Eden  
Deranged, we're tearing away the pedals of desire  
Learning the mathematics of evil by heart  
We deceive ourselves to start a war  
Within the realm of senses  
And descend to the circle number four  
Where we are nothing  
In the nightside of Eden, we're born again, dead  
Forever we are, forever we've been  
Forever we'll be crucified to a dream  
In the nightside of Eden  
In the nightside of Eden, we're born again, dead  
Forever we are, forever we've been  
Forever we'll be crucified to a dream  
In the nightside of eden  
Forever we are, forever we've been  
Forever we'll be crucified to a dream  
In the nightside of eden  
Forever we are, forever we've been  
Forever we'll be crucified to a dream
