

Summer Time

[Markku Mattila](#)

Summer again, the sun shoots it's rays to us
And aeroplane flights above in the sky
This evening lights the easy side of life to us
When the colours are changing, fading away
It's summer time, and we drive 'till the morning light
You are so beautiful tonight
You ask me so many things, much more than others before
These questions tell me about You, 'couse I see behind every word
It's summer time, and we drive 'till the
morning light
You are so beautiful tonight
