

# Side Kick

## Rancid

I had a dream I was a vigilante's side kick My name is Tim  
I'm a lesser known  
character I had a dream I was a vigilante's side kick fighting crime in the  
streets together  
Down in Oakland off of West Grant St. Joseph relief program  
a good place where good people get food help your fellow man  
A good thing to  
do government agency said be afraid of me I shut your doors down it won't  
phase me Wolverine came through left the agent for dead opened up the doors  
back up, everyone was fed  
Do not bill the abandoned buildings it's nice to  
sleep when you got a ceiling neighborhood watch said we gotta put a stop said  
we can't have people livin' for free call the cops here come the SWAT team &  
the M-16 shoot the walls in destroy the building Wolverine was sad & it made  
him mad Every single cop got a bullet in their head
