

Honeymoon on a Rocket Ship

[Hank Snow](#)

I know somewhere out in the world there is a gal for me
I'd like to find and make you mine, how happy we would be
We wouldn't need a moonlight night to sit outdoors and spoon
'Cause I would buy a rocket ship and take you to the moon
We would have our honeymoon on the rocket ship
We would fly from star to star on our wedding trip
You could make your wedding gown out of a big moonbeam
Sprinkle star dust in your hair, you'd be a perfect dream
We'd sit on top of the universe with no one else around
I'd reach right out pick the stars and make you a pretty crown
I'd place it on your little head and kiss your smiling lips
As we glided out through space upon the rocket ship
We would have our honeymoon on the rocket ship
We would fly from star to star on our wedding trip
You could make your wedding gown out of a big moonbeam
Sprinkle star dust in your hair you'd be a perfect dream
Then we'd go strolling arm in arm along the Milky Way
We would visit every planet on our wedding day
We would laugh and love sweetheart and you can be my wife
We would find the land of love out there in paradise
We would have our honeymoon on the rocket ship
We would fly from star to star on our wedding trip
I'd take my old guitar along and we would softly croon
On our journey through the sky and headed for the moon
