Not Satisfied

Aswad

No, not satisfied, no, oh, no
Situation is so dread people them bawl
And hold their heads
Yes, now and when they findCan't even make two ends meet, hmm, hmm
But they must keep on living somehow
Some say they should be grateful
For the things they haveIt's only them who feels it know's it
Know's it, right now, in this time
How can they let this life go on?You see they're not satisfied
With the life they're living
And they're not satisfied
With the life they're living
Oh, they'll never be, I knowProblem time like this
I've seen youths who've turn to crime
They're looking a way
To keep their head above the waterEveryday their hustle
Still half of the time time
They can't even make
Two ends meet, hmm, hmmBut they must keep on living some how
Some say they should be grateful
For the things they haveIt's only them who feels it know's it
Know's it, right now, in this time
How can they let this life go on?When they're not satisfied
With the life they're living
You know they'll never be, oh, noWhen you're giving? What you're giving? Won't cha?
When you're giving? What you're giving? Won't cha?
When you're giving? What you're giving? Won't cha?'Cause in a problem time like this
I've seen youths who've turned to crime
They're looking a way to keep
Their head above the waterEvery day them a hustling
But half the time
They can't even make
Two ends meet, hmm, hmmBut they must survive somehow
Some say they should be grateful
For the things they haveIt's only them who feels it know's it
Know's it right now in this time
How can they let this life go on?You see they're not satisfied with the life they're living
How can they let this life go on?
They're not satisfied with the life they're living

How can they let this life go on?They're not satisfied with the life they're living
How can they let this life go on?
And they're not satisfied with the life they're living
And they're not satisfied, they're not satisfied
No, not satisfied with the life they're livingWhen you're giving? What you're giving? Won't cha
When you're giving? What you're giving?
When you're giving all? What you're giving?And it's a promises, promises, promises
And we won't take, no, we can't, no, no
And when you're giving? What you're giving?
No, no, not satisfied
