

Pushin' Hard

Kingdom Come

wish we'd end this suffering
And all this crazy ranting
Instead of weapon waving
There would be lives we're savingPushin' hardMe fear is for the children
And for the lives they're building
I wish I knew the answer
We could avoid desasterPushin' hardSo let the sun stream on down from the sky
And let the moments slip on slowly by
Instead of pushin' hard
We wouldn't feel so lonely insideI wish we end... [Repeat]
And all this...
I wish I knew the answer
We could avoid desaster
