

Is That A Tear

Tracy Lawrence

The last thing I expected was to get her call tonight
'Cause the last thing that I'd heard from her
Was she'd found Mr. Right
But when I came home this evening
There it was on my machine
Now I'm just wondering what the hell it means [Chorus:] She said she's sorry that she missed me
and she's been doing just fine
I've run it back and heard her say
Those words a hundred times
But something makes me wonder
Is she happy with her choice
or is that a tear I hear in her voice

The first time that I listened
I thought Boy she's got some nerve
But the second time I heard it
I heard more than just her words
Am I just wishful thinkin
or did her voice really crack
I'll never know if I don't call her back

(Repeat Chorus)

(Tag)

Oh is that a tear
Lord is that a tear I hear in her voice
