

Make Time

Pwrout

You say you wanna be the one
But still you leave the job undone
You only call me when you're free
But you know that it ain't good enough for me You're always dippin' with your friends
As if you're out there making ends
And now you're knockin' on my door
Well, I guess you were too busy before You better make time
If you wanna be with me can't you see
Show me I've got everything you need, everything
Don't think twice, if you wanna be with me, be next to me
If you wanna take the ride, you'd better make the time You better make time
If you wanna be with me can't you see
Show me I've got everything you need, everything
Don't think twice, if you wanna be with me, be next to me
If you wanna take the ride, you'd better make the time There's other places I can be
If you're not careful you might see
Me out there with somebody else
If you do you can only blame it on yourself I'm feelin' you without a doubt
But I know how to do without
So don't you call me on the phone
Late at night when you don't wanna be alone Don't wanna be your part time lover
I gotta be more than just another
You know, you better know baby You better make time
If you wanna be with me can't you see
Show me I've got everything you need, everything
Don't think twice, if you wanna be with me, be next to me
If you wanna take the ride, you'd better make the time You better make time
If you wanna be with me can't you see
Show me I've got everything you need, everything
Don't think twice, if you wanna be with me, be next to me
If you wanna take the ride, you'd better make the time You're gonna have to show me
You wanna be my one and only
You're gonna have to prove it to me Don't wanna be your part time lover
I gotta be more than just another
You better You better make time
If you wanna be with me can't you see
Show me I've got everything you need, everything
Don't think twice, if you wanna be with me, be next to me
If you wanna take the ride, you'd better make the time You better make time

If you wanna be with me can't you see
Show me I've got everything you need, everything
Don't think twice, if you wanna be with me, be next to me
If you wanna take the ride, you'd better make the time You better make time
If you wanna be with me can't you see
Show me I've got everything you need, everything
Don't think twice, if you wanna be with me, be next to me
If you wanna take the ride, you'd better make the time You better make time
If you wanna be with me can't you see
Show me I've got everything you need, everything
Don't think twice, if you wanna be with me, be next to me
If you wanna take the ride, you'd better make the time You better make time
If you wanna be with me can't you see
Show me I've got everything you need, everything
Don't think twice, if you wanna be with me, be next to me
If you wanna take the ride
