

# Open Up Your Door

[Samesugas](#)

Here I am sittin' on your porch, dear  
Beggin' you, darlin', let me in  
In total submission I have come here  
Oh sweetheart, I know how bad I've been I won't let my dog sleep in your hallway  
I won't spit my tobacco on your floor  
I'll come runnin' when you call me  
If you just opened up your door If you tell me you still love me  
I won't drink or cuss no more  
I won't call your mama ugly  
And I won't chase women like before I won't let my dog sleep in your hallway  
I won't spit my tobacco on your floor  
I'll come runnin' when you call me  
If you just opened up your door I won't let my dog sleep in your hallway  
I won't spit my tobacco on your floor  
I'll come runnin' when you call me  
If you just opened up your door  
If you just opened up your door
