

Time of My Life

H-Blockx

From the east to the south
I tongue the roof of my mouth
To new days of doubt without you

First gear

I face the trouble ahead

Final word's been said

Long distance spread between us

I tell myself to

Hold on, won't be long

Till I grow through this struggle

Time to wake up

Find my soul

Happy without you

Not called for weeks now

It's six days without sleep means

I am a slave to my early grave

If I do not be brave, behave

Seize myself out of this mess

I have created of myself yet again

Yet again I say

Hold on, won't be long

Till I grow through this struggle

Time to wake up

Find my soul

Happy without you

We go on, heart beats strong

Still whole, unbroken

As we divide our love goodbye

Thanks for the time, time of my life

Happy without you

Happy without you
Happy without you
Happy without you
Time, time of my life
Time, time of my life
(So happy without you)
Time, time of my life
Thanks for the time of my life
(Happy without you, happy without you)
Happy without you
