Sexi Lexi

Distorted Penguins

I wanted to make things easier but instead I complicated them
I wish I'd learn to keep my big mouth shut
We were so happy as one, I made a call now we are done
Now I am alone but day and night I think about you
How could I not think about you?All these days are feeling so true to be told I can't be with you
I don't care about nothing else, until you say you're mine againSexi Lexi, where did you go?
I didn't want it to be this way
You think it is better, but I think it is worse
Why can't things be the same as yesterday?I liked it when you were my girl, liked when I was your guy
Now we're strangers, I want to know why
I really want to call you but what if you don't want me to
I don't know if I could deal with that kind of rejectionSo many times I've tried to make it up to you
So many times I've tried to love you, I wanna be with you
So many times I've tried to try and try and try and try
So many times I've tried to try...I wanna be with you.
