

Pink Glove

Pulp

You'd better watch what you're wearing
If you want him to come round and see you tonight
He doesn't care what it looks like
Just as long as it's pink and it's tight
It's what he loves Ooh, so what should you do?
Should you stop being you?
Just to be how he wants you?
Ooh, you'll visit your mum
Tell me that you'll come
And meet me in the afternoon He's got your heart
You've got his soul
You might as well know So what? I know you're never going to be with me
Do you understand now that maybe
You got it right first time
I realise that you'll never leave him
But every now and then in the evening
You could get it right first time I know you think, I've got to be joking
But if you touch him again, then I'm going
You got it right first time, get it right first time And now you've done it once, now he wants you
To wear your pink glove all the time Ooh, so what should you do?
Should you stop being you?
Just to be how he wants you?
Ooh, you'll visit your mum
Then tell me that you'll come
And meet me in the afternoon He's got your heart
You've got his soul
You might as well know So what? I know you're never going to be with me
Do you understand now that maybe
You got it right first time
I realise that you'll never leave him
But every now and then in the evening
You could get it right first time I know you think I've got to be joking
But if you touch him again, then I'm going
You got it right first time, get it right first time Oh you'll always be together
'Cos he gets you up in leather
And you know what to wear at the end of the day
And I'd laugh if I saw but I'm out the way Yeah it's too long ago
Shouldn't care anymore
But I wanted to know

Is it as good as before? Yeah it's hard to believe that you'd go for that stuff
All those baby-doll nighties with synthetic fluff
Yeah it looks pretty good and yeah it fits you ok Wear your pink glove babe
He put it on the wrong way So what? I know you're never going to be with me
But do you understand now that maybe
You got it right first time
I realise that you'll never leave him
But every now and then in the evening
You could get it right first time I know you think I've got to be joking
But if you touch him again then I'm going
You got it right first time, yeah I know that you'll never leave him
You got it right first time
Get it right first time
