

All About That Bass (No Tenors)

Straight No Chaser

Because you know I'm all about that bass,
'Bout that bass; no tenors.
I'm all about that bass,
'Bout that bass, no tenors
I'm all about that bass,
'Bout that bass; no tenors
I'm all about that bass,
'Bout that bass, bass, bass. Yeah, it's pretty clear--I ain't no tenor II,
but I can make you move like I'm supposed to do.
'Cause I got that Boom Boom that all the girls chase,
and all the low notes in all the right places. I hear those tenors screamin'
Trying to reach the top.
Sound like a bunch of girls,
Come on now, make it stop. If you like bass, bass
then raise them up
'Cause every octave that I sing
Is perfect bottom to the top. Yeah, my mama she told me,
"Don't worry 'bout those tenor guys"
She said, "Girls like a low voice to whisper in their ear at night." (That voice is dreamy, it's getting steamy).
No, I won't be no pop star, no rock star,
but I'll do just fine.
So if that's what you're into,
then go ahead and waste your time. 'cause you know I'm all about that bass,
'Bout that bass; no tenors.
I'm all about that bass,
'Bout that bass, no tenors
I'm all about that bass,
'Bout that bass; no tenors
I'm all about that bass,
'Bout that bass, bass, bass. I'm bringing bass back,
Don't those tenors sound like shrieking cats?
They think they're all that...
But every note that I will hit is perfect bottom to the top. Yeah, my mama she told me,
"Don't worry 'bout them baritones"
She said, "They sing the same three notes and never get solos." (They're really boring, they'll leave ya storming)
And I will not back down to the vocal percussion guys...
'Cause all you need is this bass voice to get you through the night. Because you know I'm all about that bass,
'Bout that bass; no tenors.
I'm all about that bass,

'Bout that bass, no tenors
I'm all about that bass,
'Bout that bass; no tenors
I'm all about that bass,
'Bout that bass, bass, bass.(Repeat x2)
