Old Love

Dru Hill

Baby, I would like to reminisce
All times that we were intimate
(Because some things have changed)
Baby, I would like to recognize
When I was sexy in your eyes
(Things are just not the same)
Oh baby
(Oh baby)
I?ve got to see if I can still take ya higher
(Would you mind if I do it baby, baby, baby)
(Oh baby)
I?ve got to see if I can still light ya fire, fire
Gimme some of that old love
The love I used to get more of
(Aw baby)
Like when I first got to know ya
(Like back in the day)
Like the way we used to be
(Gimme some)
Gimme some of that old love
To make me feel like a soldier
(I salute you baby)
Better now that I?m older
Like the way we used to be
Baby, I would like to reconcile
With the passion that?s now exiled
(Because some things have changed)
Baby, let?s go back to yesteryear
When the chemistry we had was here
(Things are just not the same)
Oh baby
(Oh baby)
I?ve got to see if I can still take ya higher
(I wanna see if I can light yo fire, yeah)
(Oh baby)
I?ve got to see if I can still light ya fire
Gimme some of that old love
(Old love)
The love I used to get more of

(More love)
Like when I first got to know ya
(Got to know you babe)
Like the way we used to be
(I want some of that)
Gimme some of that old love
(Old love)
To make me feel like a soldier
(Feel now)
Better now that I?m older
(Lemme show you)
Like the way we used to be
Lemme show you how we used to be, baby
We put out less candles
We would find new handles on each other, baby
How we used to be, baby
We would tear out springs, baby
And we would make offspring baby
Remember when
(Remember when)
Remember when, baby
Oh baby
Remember when
(Remember when)
Remember when, baby
Gimme some of that old love
The love I used to get more of
Like when I first got to know ya
Like the way we used to be
Gimme some of that old love
To make me feel like a soldier
Better now that I?m older
Like the way we used to be
Gimme some of that old love
To make me feel like a soldier
Better now that I?m older
Like the way we used to be
