

Alternica

Veruca Salt

I made it
I made it out
Just in time to hear the engines stop
I made it
I made it back
Long enough to sail across your sky

Now Iâ€™m whole...

Dislocated
Complicated everything
When it was so simple to love you
I hate it
I hate it now
How you opened up the sky for us
And we fell through
Stepping over bodies, I canâ€™t find you

Now Iâ€™m whole...

This is Alternica
Desert and the plains
And the ocean waves
Oh brave Alternica
Remember what you know
And youâ€™re not alone
All hail Alternica
What you learn is gone
And weâ€™re going, going

And in the end it comes around
Comes around again
