

Pockets

fakebestfriend

By now you know that I never arrived
I was too tired to move
I was gonna invent an elaborate excuse
But I'm tired of them tooLittle pockets of air in the atmosphere
 Make it easy to breathe
 So farewell to unpleasant scenes
I want you to stay, stay, stayBlinding flash of circling stars
 Left relatively shallow scars
 Played your faux renaissance card
To starry eyes and wild applauseLittle pockets of air in the atmosphere
 Make it easy to breathe
 So farewell to unpleasant scenes
I want you to stay, stay, stay, want you to stayIt's not your, not your destination
 Something, something better happen
 It's not your, not your destination
Something, something better happenLittle pockets of air in the atmosphere
 Make it easy to breathe
 So farewell to unpleasant scenes
I want you to stay, stay, stayI want you to stay, stay, stay
 Oh, I want you to stay, stay, stay
 I want you to stay, stay
