

Drown with Me

Royal Bliss

The nights still young, you should stay a little longer
We're gonna have some fun, we're not gettin any younger
Come on let's go, were movin to slowDrown with me, take a hit of whisky
We can go rebel 'round until it hits me
Did I make myself clear? yeah
I said Drown with me, let's get busy
Sing you a little song until you kiss me
Have I made myself clear now?
I know I'm not your style, I'm leather your lace
But I can make you smile, and take you out of this place
Come on lets go, go, go
We're movin to slow for my baby
I wanna take you for a ride, yeah
We can go all night, I want cross that lineCome on and Drown with me, take a hit of whisky
We can go rebel 'round until it hits me
Did I make myself clear? yeah
I said Drown with me, let's get busy
Sing you a little song until you kiss me
Have I made myself clear now?
Did I make myself clear?(Let's go for a ride)
Drown with me, take a hit of whisky
We can go rebel 'round until it hits me
Did I make myself clear? yeah
I said Drown with me, let's get busy
Sing you a little song until you kiss me
Have I made myself clear now?
Did I make myself clear?
Oh - Did I make myself clear? yeah
Did I make myself clear?
Did I make myself clear? yeah
Said - Did I make myself clear?
