

That's What They Like

Lil Boosie

That what they like, oh you like that, huh?
That what they like, oh you like that, huh?
That what they like, oh you like that, huh?
That what they like
Lil' *** big name, big watch and big chain
Big ol' big earrings, blang, that what they like
Oh, she like that huh? That what they like
Oh, you like that huh? That's what they like
Paint drips, big whips, big dawgs wit dem big chips
Dem big ***, dem big ***
Oh, you like that huh? That what they like
Oh, you like that huh? That what they like
Candy paint, sippin' syrup, 26's on the curb
Whole click flippin' birds, girl
And you like that huh? That what they like
Oh, you like that huh? That what they like
Dolla signs, rubber bands 'round cash
Man, you got a ol' lady still takin' care yo' ***
And you like that huh? That what they like
And you like that huh? That what they like
Going fishin' on the banks of Mississippi
Everything you tell that *** he listen, that *** trippin'
But you like that huh? That what they like
Oh, you like that huh? That what they like
When you lookin' good, whoo, that's what they like
When you smellin' good, whoo, that's what they like
Talk Lil B in every hood, whoo, that's what they like
They like, ?Lil Boosie spit that real s***?, that what they like
Girl, you like that, huh? That what they like
Girl, you like that, huh? That what they like
Girl, you like that, huh? That what they like
Girl, you like that, huh huh? That what they like
I done threw up in the charger, man, I know you hear
That Hemi stop in front yo' house and tell you jump in it, fo' real
And you like that huh? That what they like
And you like that huh? That what they like
Leather seats, gettin' *** on the beach
*** hit you for two hours and put you to sleep
But you like that huh? That what they like

Oh, you like that huh? That what they like
Lookin' good, smellin' good, respect Lil B in every hood
I hold it down for Baton Rouge
And you like that huh? That what they like
And you like that huh? That what they like
Gucci shades on my Lil Boosie face
Fitted hat some days, throw back Oakland A's
And you like that huh? That what they like
And you like that huh? That what they like
I rock Beamers, I rock Caddy's, I rock Benz's, it's crucial
Every time you see me, fresh out the cleaners, that's Boosie
And you like that huh? That what they like
And you like that huh? That what they like
When you lookin' good, whoo, that's what they like
When you smellin' good, whoo, that's what they like
Talk Lil B in every hood, whoo, that's what they like
They like, ?Lil Boosie, spit that real s***?, that's what they like
Girl, you like that, huh? That what they like
Girl, you like that, huh? That what they like
Girl, you like that, huh? That what they like
Girl, you like that, huh huh? That what they like
They like TV's and DVDs, huh uh
They like to take big trips over seas, huh uh
They like to do the rodeo from the front, from the back
They like to give me *** 'cause they know I'm comin' back
But money don't make me, I make money
I hate 20 dolla bills, I like hundreds
Ivory Hunter say they like that, she ain't lyin'
She back up all the time 'cause she know her daddy shine
Leave a bad *** blind by the sound of my voice
So before I count to nine, I done made that girl moist
And know what? I got my own haircut
It's called a Boosie Fade, that belgum made
