# Hunger

## Darden Smith

I see this child at his mothers breast
All my life I've been pushing away
Pulled away too soon from the tenderness
And the shoulders of my soul they are so tired todayStill he reaches out, hopes to find some kind of
I want to learn how to let you in
Peace of mind he left behind
How to find again my long lost friend?Hunger
Raven for love
Grows stronger every day
HungerI see this child at his mothers breast
All my life I've been pushing away
Pulled away too soon from the tenderness
And the shoulders of my soul they are so tired todayStill he reaches out, hopes to find some kind of
I want to learn how to let you in
Peace of mind he left behind
How to find again my long lost friendHunger
Raven for love
Grows stronger every day
HungerCraven for love, down on my knees I pray
Hunger never goes away
Alone tonight, quiet and still
Gonna wait until your guiding light cools
My appetiteHunger
Raven for love
Grows stronger every day
HungerCraven for love, down on my knees I pray
Hunger never goes away
Alone tonight, quiet and still
Gonna wait until your guiding light cools
My appetite
