# One With the Sun

## Shelby Lynne

One with the sun
You and me
One with the sun
Living is free
I got you now
Won't let you go
Tomorrow's a memory
We'll never know
One with the sun
I'm listening to you
One as the sun
I hear what you say
I love you so much
You are the way it isThe planets are the stars
I think they are your eyes
And all of the stars will always be ours
We'll always be
One with the sunBecause we are one
With the sun
And we've just begun
There's another sun
Sun is on it's way
And we'll be one
With the sun
