Vulcan Ears

Millencolin

In a tiny spaceship with four legs
A pillow and some sheets
That's where my idols always meet
I'd like to be there now
I'm trying, trying every night
To see a U.F.O. but in case
I don't, just in case I won't
I've got my fantasy to lean on
Vulcan eyebrows, Vulcan ears
That's what I dream of
No more sorrow, no more tears
Can't you get me beamed up?
Vulcan logic, Vulcan needs
Quite bizarre but still a dream
As I'm waiting for that beam
Bullshit, bullshit is all we talk
On this planet we call earth
Since I'm tired of that I'll take a further step
I think I'll find my way in space
Vulcan eyebrows, Vulcan ears
That's what I dream of
No more sorrow, no more tears
Well, can't you get me beamed up?
Vulcan logic, Vulcan needs
Quite bizarre but still a dream
As I'm waiting for that beam
In a tiny spaceship with four legs
A pillow and some sheets
That's where my idols always meet
I'd like to be there now
Vulcan eyebrows, Vulcan ears
No more sorrow, no more tears
Vulcan eyebrows, Vulcan ears
Vulcan logic, Vulcan needs
Quite bizarre but still a dream
As I'm waiting for that beam
[Incomprehensible]
