

My Own

Venture

One by one
All in line
Just for you
To waste our time
All alone
Out of sight, out of mind
The taste, is mine

All of this that's been built up inside me
Only grows because of your guiding
If I can see my way back home
Just one more chance to go
Before I make it my own

Work our fingers
To the bone
Just to see us
On our own
All alone
Out of sight, out of mind
This day, is mine

All of this that's been built up inside me
Only grows because of your guiding
If I can see my way back home
Just one more chance to go
Before I make it my own

No I don't see things, the same way that you do
So don't promise me if it won't ever come true
Your glass heart is within a stones throw
So I'll have to break it and make it MY OWN

All of this that's been built up inside me
Only grows because of your guiding
If I can see my way back home
Just one more chance to go
Before I make it my own

Lyrics and Melody by Blake Self
