

Only Human

Fallulah

Here is the love, now it's not there*
Never enough, why must they stare?
Here is the love, at least for a day
Runs out like food, when you can't pay
I'm looking the part, but I'm lacking the heart
Is there a reason that I shouldn't tell you right from the start?
I'm looking the part, but I'm lacking the heart
Is there a reason that I shouldn't tell you right from the start?
Don't come near me
I am only human
Don't come near me
I am only human
Don't come near me
I am only human
(Don't come near her
Don't you know she's only human?)
Don't come near me
I am only human
(Don't come near her
Don't you know she's only human?)
Here is the love, don't point it at me
Making me feel the things I should be
Here is the love
It's here in the crowd
(Crowd you're loud)
Getting too close
I need to get out
I need to get out
Don't come near me
I am only human
Don't come near me
I am only human
Don't come near me
I am only human
(Don't come near her
Don't you know she's only human?)
Don't come near me
I am only human
(Don't come near her

Don't you know she's only human?)
