

My Angel / How Could You

Dru Hill

This is dedicated to my real Angel, Ms. Joan I. Milburn Green

 This is for you, Mommy

 You taught me everything in life I'd need

 Sometimes I felt you were my everything

 And if it were all left up to me

 You'd be right beside me but you're gone

 Although I know you're in a better place

 So selfishly I wish you could've stayed

 How I long to hear you call my name

 Lord, give me the strength to carry on and on

 If you talk to my Angel

 The one who carried me and gave me life

 Could you tell her that I love her

 And I can't wait to see her on the other side

 Rest in peace, I love you

 Was it all in vain when I gave my life to you

 Did I make the right decisions

 Lord, tell what am I supposed to do?

 How do I fight temptation when my life is filled with sin

 And if I ever fall from your grace

 Will you accept me again?

 I wanna know

 If I'm washed in your blood, will you set my whole life free?

 If so, if so

 Then I'll continue to love thee

 How could you forgive me, how could you forgive me

 When my life was filled with sin?

 When your arms were open, I turned my back

 And then you continue to bless me

 It's no further from the truth

 I said there's no doubt about it

 Never find a friend like you

 Why do you do it

 When it seems I've forgotten you

 It just shows that you know my heart

 And there is none like you

 You're the light in the midst of darkness

 It was you who made a sound

If anyone can fix my life
I know you're the one
I surrender it all to You, Jesus
Please give me Your help
I need You
Yes, I do yeah, I need to know
I wanna know
If I'm washed in your blood, will you set my whole life free?
If so
How could you forgive me, how could you forgive me
When my life was filled with sin?
When your arms were open, I turned my back
And then you continue to bless me
It's no further from the truth
I said there's no doubt about it
Never find a friend like you
How could you forgive me, how could you forgive me
When my life was filled with sin?
When your arms were open, I turned my back
And then you continue to bless me
It's no further from the truth
I said there's no doubt about it
Never find a friend like you
Never find a friend like you
