

Merry Go Round

Bottlefly

I believe life is a roller coaster
I believe in my little dream I'm superman
See the world is gradually getting smaller
As I fly no helter skelter's dragging me down
I go round So make the most stop burning the toast
Watch the wheels that roll me over
Doctor, doctor leave it to me - can't you see
I'm floating through the clouds Riding my merry-go-round
You and i, we could pave the way in silver
Say good bye hand in hand together we go
Cause I know
So make the most stop burning the toast
Watch the wheels that roll me over
Doctor, doctor leave it to me
Cant you see I'm floating through the clouds
