

# Ball Peen Hammer

Joe Bonamassa

I wanna go there, I wanna climb  
Now I don't know about no law, I don't see no crime  
Ain't no reason, ain't no rest  
I wanna get down to the woman and get undressed  
And I can't stand it, I can't stand it  
I can't wait to see them walls falling down  
So tell me Jesus, why they run  
Is it by the weight of the woman, the weight of the gun?  
Got fifty minutes now and I just don't care  
I'm gonna take this off already when I get there  
And I can't stand it, I can't stand it  
I can't wait to see them walls falling down  
And I can't stand it, I can't stand it  
I can't wait to see them walls falling down  
No where tomorrow, a Sunday rhyme  
You know all good things come in their due time  
Put 'The Ball Peen Hammer', 'Right Thru' That Door'  
And I don't pretend to understand no more  
I can't stand it and I can't stand it  
I can't wait to see them walls falling down  
I can't stand it, I can't stand it  
I can't wait to see them walls falling down
