

# Favorite

## Purple Ivy Shadows

Don't look sexy but it just feels right  
Not too dirty and it's not too tight  
Why I never threw it out

I'll never know exactly whyKeep it in the drawer beside my bed  
It's faded pink now, but it used to be red  
Starting to fray at the seams

But I know that you'll still love meLike you did, like you did  
Like before, like before  
Like we will, like we will

Be doin' it once moreOh baby know what you're like  
You're like my favorite underwear  
It just feels right, you know it  
Oh baby know how you feel  
You feel like my favorite underwear

And I'm slipping you on again tonightLeave you lyin' on the bedroom floor  
I leave you hangin' on the bathroom door  
Take you for granted

But I'll always know exactly where you areLost you once you were hard to find  
Got you back you didn't look like mine  
Thought we were falling apart

But you make me feel so prettyLike you did, like you did  
Like before, like before  
Like we will, like we will

Be doin' it once moreOh baby, know what you're like  
You're like my favorite underwear  
It just feels right, you know it  
Oh baby, know how you feel  
You feel like my favorite underwear

And I'm slipping you on again tonightSlipping you on again tonight  
Wrap me and roll me, hold me tight  
Tear me apart and make me new

Like you always doOh baby know what you're like  
You're like my favorite underwear  
It just feels right, you know it  
You feel you're like this is what I want

You feel, you feelOh baby know what you're like  
You're like my favorite underwear  
It just feels right, you know it  
You feel you're like this is what I want

You feel, you feelAnd I'm slipping you on again tonight
