

Caution Anti Matter

Evil's Toy

Impression endless time
Divides two tribes in space
Vanishing front line
On the edge of our dreams
Impressions within time
Lonely souls like stars they shine
Impressions within time
Lost planets on decline

Constructions rising high
Intruders from deep beyond
Fragments passing by
On a horizon colored blue
Impressions within light
Silent strangeness in the night
Impressions within light
Strange dimensions holding tight

Movements
Artificial sounds
Emptiness all around
Here is where gravity kills
