

Take Care

Beach House

Step beside of me
You can hide the way you make us glow
It's no good unless it glows
Feelings burning
 Lover while
Deep inside the ever spinning
Tell me does it feel
It's no good unless it's real
 Insides burning
 Wild eye turning
Tin wheel running from it
 I'll take care of you
 If you ask me to
You stay swimming in the lake
 We come across a snake
 It is real and then its fake
 Feel its heartbeat
 Feel what you heed
For so fast it feels too late
 I'll take care of you
 Take care of you
 That's true
