

# All the Devil's Men

## Inkubus Sukkubus

All the Devil's Men  
In Christ's name they do their evil  
All the Devil's Men  
Still mad and medieval  
With their swords and with their guns  
And poisoned words upon their tongues  
All the Devil's Men  
Hear the children scream  
For they shall teach them Christians values  
Put monsters in their dreams  
And subject them to pain and torment  
With their straps and with their canes  
They shall teach them fear and shame  
All the Devil's Men If they can't burn you at the stake  
Then your children they will take  
With the malice of their lies  
They are here to defile  
To destroy all your lives  
What they do for Christ  
And we are all the victims  
Every man, woman and child All the Devil's Men  
Their twin gods are Christ and Satan  
All the Devil's Men  
Hide your babies for they shall take them With the law upon their side  
They bring death and genocide  
All the Devil's Men  
By the sword and by the lash  
They will break you, they will take you  
In the shadow of their cross  
Lie the victims of their tortures  
In the churches and the schools  
They still take us for their fools  
All the Devil's Men If they can't burn you at the stake  
Then your children they will take  
With the malice of their lies  
They are here to defile  
To destroy all your lives  
What they do, they do for Christ  
And we are all the victims

Every man, woman and child  
All the Devil's Men  
Clutching to their dying empire  
All the Devil's Men  
Clutching at their blood-stained bibles  
Their final days have come at last  
And they shall fade into the past  
All the Devil's Men!  
If they can't burn you at the stake  
Then your children they will take  
With the malice of their lies  
They are here to defile  
To destroy all your lives  
What they do, they do for Christ  
And we are all the victims  
Every man, woman and child  
All the Devil's men
