

# I Just Want to Say

[Stephanie Mills](#)

So much love; I never knew before  
And every day; I need you more and more  
I was lost; with no love to be found  
Then you came; now love is all around  
They're so many reasons to love you so; hold me darlin'  
Open your eyes let your feelings show  
I'm so willing to begin  
Ooh ooh ooh ooh ooh

Chorus:

I just want to say; want to stay, together in love this way.  
Oh I, I just want to say, you are mind, from you I'll never stray  
Oh I, I just want to say, Ooh I pray, our love is here to stay.

Suddenly, everything is right  
Want to be, with you day and night  
Seasons change; faces come and go  
But you and me, we're gonna let love grow  
Whenever you need me, just turn my way; I'll be there  
This gift that you gave me I can't repay  
Cause love is ours to share  
Ooh ooh ooh ooh ooh

Chorus

I just want to say; want to stay, together in love this way.  
Oh I, I just want to say, you are mind, from you I'll never stray  
Oh I, I just want to say, Ooh I pray, our love is here to stay.  
Ewwhh, I, I just want to say; want to stay together in love this way.  
Ewwh, I just want to, I just want to, you are mind, from you I'll never stray  
Ewwh, I just want to, I just want to, I just want to, ooh, ooh I pray, our love is here to stay

Fades out
