# Lies

## Headstone Epitaph

[Martin: The basic riff was inspired by the music of an]
[old video game i played in my childhood.]
[The first song we wrote after our debut album.]
[it was really hard work: Most people are good actors.][vers:]
hey are you full of desire
you keep on walkin? your way
so hard you need to inspire
cause you need the fringe group today
wantcha to pass over in silence
can't accept your way of life
oheyoh every minute
and all day through
[ref:]
oheyoh look under the sky
all the people do believe in many lies
if they only get along
well with you every minute
and all day through
[vers:]
hey you you couldn't be tired
we'll keep on makin'
you stay right now
we're risin' up higher
right now
you wanna change
the train we share
the same conditions
but we don't share
you're way of life
oheyoh every minute
and all day through
