Otherside

Tom Swoon

(feat. Niclas Lundin)

Everyday has a window
Away from the safe and into the wild
The face of the earth is a mirror
So lets walk the streets of space and time

Weâ€™ll be alive
Come follow me now
Follow me to the light
And thatâ€™s along the otherside

That's along the otherside

Everyday has a window
Away from the safe and into the wild
The face of the earth is a mirror
So lets walk the streets of space and time

And weâ€™ll be alive
Come follow me now
Follow me to the light
And thatâ€™s along the otherside

That's along the otherside

That's along the otherside
