

Follow

Bang Gang

Can you feel the sun
Can you feel it burn
 Shining alone
 Minding it's own
 Blinding my soul
It gets me higherNow follow me always
 Into the sky
Where we reach the stars
 Now follow me slowly
 Over the stars
Where we reach the sky
 Where we reach the sky
Where we reach the skyCan you feel the sun
 Can you feel it burn
 Shining alone
 Minding it's own
 Blinding my soul
It gets me higherNow follow me always
 Into the sky
Where we reach the stars
 Now follow me slowly
 Over the stars
Where we reach the sky
 Where we reach the sky
Where we reach the skySky
