Out Of This Misery

Prong

I'll take no blame
For some other's mistake
A fossil of the past
Continue underrateThe ability to end a life
No stability in opinions not alike
Not alike
Opinions not alikeSomeone should take me, out of your misery, yeah
If I should take it any further, any further
I'll end it, you out of this misery, yeah
Out of this misery, yeahI will not shame
For a deed undone
I'm reaching for the stars
Spittin' at the sunI'll take the liberty to get you off my back
I want your history taken off the map
Off the map
Your history taken off the mapSomeone should take me, out of your misery, yeah
If I should take it any further, any further
I'll end it, you out of this misery, yeah
Out of this misery, yeahYou've got life
Blood on our hands
This is no lifeSomeone should take me, out of your misery, yeah
If I should take it any further, any further
I'll end it, youSomeone should take me, out of your misery, yeah
If I should take it any further, further
I'll end it, you out of this misery, yeah
Out of this misery, yeah, out of this misery, yeah
