

# A Coat of Many Colors

Israel Nash

I don't live like the others  
I see twice as many colours  
When you know tomorrow is just a day  
You're not as quite like the others

Wrap your spirit around the chambers of my heart  
Bury your secrets in the lucky stars

Got a friend like no other  
She's a fire and a lover  
From time to time she owns the sky  
Sometimes shes right beneath the cover

Wrap your spirit around the chambers of my heart  
Bury your secrets in the lucky stars

Back and forth goes the water  
Through the stile and through the garden  
When you wonder how you'll be found in the sea of others  
I gave you a coat of many colours

From time to time  
I turn my eye  
To release your high  
This could be why  
I'll take you right over  
I'll take you right over
