On and off

You told me to wake you up

When the hand reaches the sixI crash over, laying (laying)

My eyes on the roadHelp me to hold on to all your foes,
they will be the last ones alwaysYou and I are lost can't save this,
world if we could see the truth through the lies

But you and I will never be the same

AgainOn and Off

The ropes in which I upheld

Two lines across your face
for every smile you gave

to me with loveHelp me to hold on to all your foes,
they will be the last ones alwaysYou and I are lost can't save this,
world if we could see the truth through the lies

But you and I will never be the same

AgainI beg myself to watch your face
and clear the sin of you away

for love the key will always be disguisedYou and I are lost can't save this,
world if we could see the truth through the lies

But you and I will never be the same

Again
