

# It's a Great Life

[Ace Frehley](#)

To the left. To the right.  
We think we're okay.  
We walk we talk.  
Forget where we're going.  
We lose our way. We love we laugh.  
We act like we're happy,  
if just for a day. Now times have changed  
so don't be fooled.  
You got to remember you gotta be cool. There's too many voices you can't control.  
You better think twice before you're too old. It's a great life if you don't weaken.  
I paid a high price for all I've done wrong.  
It's a great life if you don't weaken.  
My daddy told me so I wrote this song. We feel, we touch.  
We see other people  
We put on a smile.  
We come we go with so much frustration.  
Accepting denial. The time has come.  
You must stand tall.  
You just arrived.  
Can't conquer it all. The sun has set.  
The tide's begun.  
Your ship has sailed.  
What have you become? It's a great life if you don't weaken.  
I paid a high price for all I've done wrong.  
It's a great life if you don't weaken.  
My daddy told me so I wrote this song.
