I Believe In You

Rumer

[from "Johnny English Reborn" soundtrack]When you're sleeping, I watch you for hours
Feels like reading
Or gazing at stars
Never touch you, no
Just waiting for one to fall to Earth
Brighten up my empty world'Cause I believe in you
I believe in you
You make it better
You keep on coming through
So much, I don't believe it
But I believe in youHeroes win
But sometimes they fail
Some people can't believe it
But I need you human anyway
Nothing less
I want my star to fall to Earth
It's where we love; it's where we hurt'Cause I believe in you
I believe in you
You make it better
You keep on coming through
So much, I don't believe it
But I believe in you(You make it better, baby)
You make it better, babyI believe in you
(You make it better, baby)You make it better
You keep on coming through
So much, I don't believe it
But I believe in you
