

# Lie Before You Leave

## Montgomery Gentry

I know it's over I won't hide from that  
Once that door closes you won't be coming back  
I've only one favor left to ask of you  
If your heart's not hurting tooLie before you leave and tell me we were something  
Say that leaving me will be your great regret  
Say it sweet enough that one day we'll feel like it was love that we made  
Do this thing for me, set my mind at ease, lie before you leaveI never doubted you made me believe  
That deep down inside you really cared for me  
But if that was just some kind of spell you weaved that's fine  
As long as you work that magic one more timeLie before you leave and tell me we were something  
Say that leaving me will be your great regret  
Say it sweet enough that one day it feel like it was love that we made  
Do this thing for me, set my mind at ease, lie before you leave
