Have I Told You (DJ Kent Remix)

Relo

(Verse)
You are my soul
I feel my heart beating at the
sametime as your's
When you touch me, I loose control
and now I feel a feeling I have never
felt before.

I know it too deep, a love that grows but this love thing going because it only grows. But I...
I feel you taking over my heart (Taking over my heart)
Your my happiness (Your my happiness)
Your my joy (Your my joy)
You own my heart (you own my heart)
Nothing else can tear us apart

(Chorus)
Have I told you that I love you?
Have I showed you that I need you love?
In many ways than one. You are the only in my heart

(Verse 2)
In you, I found the motivation to love with all my heart. You cared and loved me like you never had a broken heart. I cherished that.....
I love you more because it makes my belly
The days are different kind of love we living.The love that makes you wanna tell those that don't know.

But thats love, talking 'bout the love, love X2
But thats love

(Chorus)
