For Your Love

My Dear Disco

it's only for your love baby 2x

Its only for your love that I make it hard for you.
Gonna keep on to you baby
gonna make you be untrue

I was trying to play cool by keeping my distance
but now you feel it too
I wont be taking any chances ...whoa to win you over

its only for your love baby 2x

its only for your love
that I call you on the phone
leave you words of inspiration till I hear that dial tone
I was trying to let you go then I feel the connection
I dont mean to impose, but im not taking any chances,
whoaa to win you over

You're too smart for flattery,
but why is it so hard to see
cause everything I do,
is with you in mind

its only for you love baby x4

[instrumental]

its only for you love that I keep hanging around
trying to show you my affection, baby please dont turn me down
why do you resist when you're feeling the motion
I dont mean to impose, but won't you take a chance now and come on over
she says you're her property but I wont shake off easily
cause everything I do is with you in mind (it's only for your love)

its only for your love baby x a lot

When I come home you're all I think about baby
(when I come home)

but my old lady keeps my pockets full
(pockets full)
I know sometimes you think im mighty cold (mighty cold)
but it wont be too long before im yours

it's only for you love baby
it's only for your love baby yea
it's only for your love
(did it all for your love)
its only for your love
(did it all for your love)
...
[I wrote these while listening to the song twice. If you find any errors feel free to correct them ~ Porshea]
