Normal Like You

honestly i waste my time i can't please everyone constantly you're overreacting let me guess i bet you're still the victim you'd like to think that you're so good at understanding the fan is on high but nobody's getting colder this irritating noise just gives someone something to bitch about i'll help you out yeah he's trying so hard maybe one day he'll learn the hand reaching out is the one slapping him in the face yeah maybe one day he'll learn from these mistakes perfect i'm so perfectly wrong i'm perfect at making mistakes i'm asserting myself but i'm not getting anywhere yeah i'm so perfect so perfectly wrong i'm so perfect at making mistakes
