

# Chased By A, I Don't Know What

## Snow Patrol

And I'll come running for my life  
Scramble through these greasy pathways  
I can't look up for fear of forwards  
I hear your words reverberate An easy ride is all you said I was Please try to control your feelings  
It doesn't make me want you more  
I'm terrified by every vacant  
Glance you shoot across my way
