

Anyone

Athenaeum

It's very very necessary
To take things as they come
No hurry
Don't get yourself worried
I know you're not that dumb Oh, anytime you want
I'll be there for you
Anywhere you are
Is where I'm running to
And anyone would agree
I'm so right for you
Anyone It's easy, it's so very easy
So why are you so sad
Take all your problems
Know that you can solve them
It might not be that bad Oh anytime you want
I'll be there for you
Anywhere you are
Is where I'm running to
And anyone would agree
I'm so right for you
Anyone Oh anyone you want
I'll be there for you
And anyone would agree
I'm so right for you Oh anyone you want
I'll be there for you
Anyone
