Impossible

Kate Earl

no matter how hard
no matter how tough
there is no turning back
no way youll ever give up on me
no matter how dark
no matter how deep
the challenges may be
youre gonna find me right here
always right beside youwhat ever curve
life may throw
were in it together
cause you and i
are building our dreamthey say impossible
they say it cant be done
cant break us down cause were unstoppable
they say too difficult
that it could never work
they think that weve been tryin for too long
but i know better
i know that were about to show them allno matter how sick
no matter how tired
frustrated i become
you never let me give into that
no matter who sees
no matter who thinks
that they can put you down
go on and hold your head high honey
circumstances for worse or better
are no excuse to forfeit our dreamsthey say impossible
they say it cant be done
cant break us down cause were unstoppable
they say too difficult
that it could never work
they think that weve been tryin for too longthey can say what they want to
anyway it never matters what they think
theyre still blind and were still free
i know i know i know...they say impossible
they say it cant be done
cant break us down cause were unstoppable

they say too difficult
that it could never work
they think that weve been tryin for too long
but i know better
but i know well prove them wrong
cause i know better
i know that were about to show them all
